## TO THE EMPLOYEES OF PALESTINE

We are Organizing the Employees Co-Operative Mercantile Company Capital Stock \$10,000--Sold in Shares of \$25

Are you an employee? If you are, you should have one or more shares.

This is what you gain by it: When you trade for merchandise you would trade with yourself, "thereby getting all merchandise at first cost, plus the expense of handling."

No? What do we mean? This is our plan: We will sell to our stockholders at 10 per cent discount, less than the current retail price, and still you will receive what dividend there is made on your stock at the end of each year.

Can't you see that this gives you goods at wholesale cost, plus the actual cost of handling?

Can you afford to miss this opportunity to reduce your living expenses? I say no. For instance: Say you spend \$25.00 per month, for 12 months you would save \$2.50 per month or \$30.00 per year; more than 100 per cent per year saved on the investment of \$25.00 for one share of stock, not counting what your dividend would be.

## "Co-Operate"--

Do You Know How It Works?

Each shareholder working for each other, shareholder and himself. Can you realize what it would accomplish? That is what we are going to do. Are you one of us, or will you be? Mr. J. E. Remember this: You as a subscriber will have a voice in the election of officers and managers.
